

BBT week 2

For this week I've included a link to a web site which has tips on how to get interesting photos with a cell phone. It's been said that the best camera is the one you have with you. Well, for a lot of us that is our cell phones.

There are quite a few tips discussed in the article. I'd like you take a few photos with your cell phones (if you have a digital camera that is ok too) while applying some of the tips in the article.

Below is an example I took today – leading lines, use of color, and a bit abstract. Notice how the colors don't all match the markers.

It will be interesting to see what you can come up with. If you are bored some day this week, take photos.
