

Hello all,

This is our home learning class page, yes, all my classes are on one page so watch for titles of things. Class names will always be stated first so there is no confusion. I have provided you work to keep you flowing in the course as if we were sitting in our awesome class together learning the content as a team!

Don't worry, I am still here for you, you can message me anytime from 8:30-4:00pm. I am here for you!

Contact

1. Email- krista.metallic@nbed.nb.ca

If you wish to show me your work, you can email me. If you do the work on paper take a photo of it to send to me, if you want to. It is up to you if I see the work or not. Just please, make sure I can understand the words on the paper (you know who you are).

This work is not to be stressful. If you want to show me the work great! If you don't, that is fine as well.

I am here for you and will miss you all dearly during this time.

Mrs. Metallic 😊

Please see your instructions below.

Instructions

Modern History 113- I have included notes we did not cover in class.

- The questions are to be answered in full sentences. Please don't forget to bold the question, not the answer. If you are writing the work out, highlight the question, use any marker as long as I can see the question.

Answer the questions right underneath the given question on the sheet given or make a new document.

I am aware that some of you may not have your books with you at home. You can find all this information online or simply from your memory of what you were taught. If you take answers offline, **I do not expect you to cite**, but **I do expect you to put the content in your own words**. Lets be clear, I know what you can write and what you cant write, so put things in your own words.

I have put the questions below incase the file I posted does not open.

Review Questions: Industrial Revolution

Why the Industrial Revolution happened in Great Britain

1. When did the Industrial Revolution begin?
2. How did the Agricultural revolution help to advance the Industrial Revolution?
