Introduction:

Home Learning" (extension of learning) begins Monday, April 6th for students at SSSH. Families are adapting to changes at home and the impacts of COVID-19. We understand they may not be able to consistently support the suggested guidelines below. That said, family encouragement will have a significant impact on the success of home learning. Parents will be asked to play a key role in ensuring students dedicate the recommended time to home learning options.

- *Students should be encouraged to complete these options for a minimum of 2.5 hours per day (total of 12.5 hours per week);*
- *Students should be encouraged to participate in a daily minimum of 30 minutes of reading and 30 minutes of physical activity;*

Expectations:

Teachers:

- Follow all guidelines per the provincial framework for Home Learning
- Develop daily and/or weekly home learning plans for students & families
- Communicate weekly with each student/family to check in and offer ongoing support
- Collaborate & plan with colleagues at the school level to ensure consistency with Home Learning's implementation within the school context
- Stay abreast of latest developments, best practices and communications

Parents:

- Provide a time and space for students to engage in home learning
- Oversee/support their children's learning
- Communicate regularly with teachers on matters related to Home Learning
- Check teacher pages, websites, etc. for ongoing posts & updates

Students:

- Commit to a daily routine that will support their Home Learning outcomes
- Communicate with teachers any struggles, issues or concerns with Home Learning
- Give equal attention to academics and social-emotional well-being
- Reach out to guidance counselors as needed
