

## **Intro to Environmental Science 120 – Home Learning Week 8**

I hope you all enjoyed last weeks gorgeous weather! It looks like summer is well on its way. For this week's assignment, we are focusing on sustainable living!

In this assignment you will create a plan as to one way you could live a sustainable lifestyle.

### **Some questions to answer when creating your plan:**

- 1) What is sustainable living?
- 2) Why is living this way important for the environment? What are the environmental benefits?
- 3) In order to move ahead with your sustainable living plan, what would be your first step?
- 4) What resources will you need to live this sustainable lifestyle? Where will you get them? If you need funds to help you, where might you get it?
- 5) How will you gather support from your family/friends/community? How will you promote this sustainable lifestyle to encourage others to join you?
- 6) What problems might you face in starting and continuing this sustainable lifestyle?

Make sure to cite any sources that you use and email me your completed assignment 😊
