Hello class, this will be our last week of home learning for this course. Please have this completed by June 8th to allow time for feedback before the June 12th deadline. I know that this class did not end up being the experience you expected, however, I hope you still found it valuable and enjoyable. This week we will reflect on your experience and what your future looks like.

1. If you were given the opportunity to do any career what would it be?
2. Is it the same career that you had intended to pursue when you began co-op?
3. Describe how your career path has changed or grown since you first began.
4. Give examples of things you would consider when choosing your "dream job".
5. What did you learn from co-op?
6. What assignments/topics did you enjoy the most?
7. What assignments/topics did you find most useful?
8. What advice would you give future co-op students?
9. What is next for you? What goals have you set for yourself and how do you plan to achieve them?
10. Create a vision board to help you identify and achieve what you want out of life. You can read more about this, and some guidelines for creating one here. <https://blog.mindvalley.com/vision-board/> Yours can be made on Word if you do not want to create an actual cut and paste board. I cannot wait to see it!
