

Goals, Growth & Grit: Skills for Success 120

shelley.sterling@nbed.nb.ca

Hello class, this will be our last week of home learning for this course. Please have this work completed by June 8th to allow time for feedback before the June 12th deadline.

We have looked at many **personal and employability skills** over these past 8 weeks. If we would have been in our regular classroom, we would have also worked on expanding our **vocabulary** daily. In the spirit of this, I would like you to examine two words which are often used interchangeably, but not always correctly. The words are **persistence and perseverance**.

- Clearly define these 2 words, in your own words, and give examples of how/when you may have used these skills to reach an objective or goal.

Another topic we would have covered in depth is **research skills** and finding reliable sources of information. How do you then manage the important information that you find? Unfortunately, we do not have any time to examine these skills, but you can on your own. Government websites are loaded with relevant and reliable information and many people are relying on these sites today to gather information regarding the current pandemic.

- Complete the **Information Webquest PDF** to see what interesting and useful information you can find on these sites.

You have **BRAINS** in your **HEAD**.
You have **FEET** in your **SHOES**.
You can **STEER** yourself any
DIRECTION you **CHOOSE**.
~ Dr. Seuss

Have a great summer,
you've earned it! 😊
