

# Co-operative Education 120

shelley.sterling@nbed.nb.ca

Hello class, I hope you are enjoying all the sunshine lately. The longer days and warmer nights are sure signs that the end of the school year is near. For you, it ends on June 12th.

We spent a lot of our in-class time, before you went to your work placement, talking about **workplace safety**. You completed the WHMIS and Safety training modules from the New Brunswick Construction Safety Association (NBCSA). Of course, health and safety are HUGE topics in the news today because of the pandemic. Do you remember the 4 main types of hazards in the workplace? Do you know which category the Covid-19 virus fits into?

- Review these hazards by watching this video  
[https://www.youtube.com/watch?v=1\\_hF9j\\_2VNM](https://www.youtube.com/watch?v=1_hF9j_2VNM)
- What hazards/dangers do you need to be aware of in the workplace/career path you have chosen? Use the 4 categories and give examples.
- Knowing the recommendations in place today for preventing the spread of Covid-19, suggest some preventative measures that could make the employees of your workplace/career path safe. What recommendations would you make based on your short experience at your work placement and the guidelines in place today?

## SAFETY FIRST

**Safety  
Starts  
Here**

**Think Safe...  
Work Safe...  
Be Safe**

Have a great week, you've got this! 😊
