January 29, 2021

Sugarloaf Senior High Parents and Families:

EECD has directed all high schools, who do the Blended Learning Model, to have **synchronous** learning every day for Semester 2. Students will be learning in a blended educational model and be attending school in person on a rotational basis at a minimum of every second day. (As they are doing now.) When not in school, students will be working remotely. They will be asked to log in from home to meet with their teachers, receive instructions and continue to learn together with their classmates.

### What this will mean for your school community is:

- Students will be expected to attend classes at SSHS and the Listuguj Learning Hub on their assigned Group Day and be expected to join the class through Microsoft Teams virtually on their assigned home day, during the regularly scheduled period.
- If Group A was at SSHS or at the Listuguj Learning Hub, then students in Group B would join their regularly scheduled period from home for the same synchronized instruction virtually via Microsoft Teams.
- If Group B was at SSHS or at the Listuguj Learning Hub, then students in Group A would join their regularly scheduled period from home for the same synchronized instruction virtually via Microsoft Teams.
- It is **IMPORTANT** to note that Synchronized Classes may be introducing **NEW** Instruction every day, depending on the course with the continued focus on prioritized outcomes.

Due to the unique situation at Sugarloaf Senior High School, Mr. O'Toole will be communicating further about other supports that will be put in place to help all students be successful.
